PROFESSIONAL SUMMARY

- ASE-certified automotive technician capable of servicing all makes and models of passenger cars and light trucks, with specialization in performance suspension system installations and modifications, as well as welding and fabrication of bumpers, framework, and safety roll cages.
- AEGIS Weapons System Ballistic Missile Defense (BMD) expert with 14 years of experience
- Subject Matter Expert (SME) in numerous combat system configurations
- Experienced with Multi-Mission Signal Processor (MMSP), BMD Signal Processor (BSP) as well as multiple versions of AEGIS Weapon System (AWS) baselines including Joint Integrated Air and Missile Defense (JIAMDO) BMD baselines.
- Test and Operations Support (TAOS) SME; coordinated system integration and testing of 17 different AEGIS baselines to provide on-site and distance support of customer system testing, development, certification, and training, reviewing of customer requested system configurations, and technical and engineering data to ensure the customer could conduct testing.
- Managed system integration and troubleshooting. Experienced in keeping stakeholders apprised of overall weapon system status, casualty reporting, and technical-to-tactical impact interpretation.
- Supervisor of maintenance and ensured accountability of hardware, tools, and test equipment, including calibration and maintenance of support equipment. Regularly sought out by peers for troubleshooting assistance to isolate faults to the lowest applicable hardware level and restore the system to normal operational availability.

EDUCATION

Automotive Technology II + Nissan Automotive Technician Training

Universal Technical Institute (UTI) (GPA 4.0), Alpha Beta Kappa National Honor Society

03/2016

Orlando, FL

PROFESSIONAL QUALIFICATIONS/CERTIFICATIONS

- ASE Certification – A6 Electrical/Electronic Systems, 04/08/2022
- ASE Certification – A4 Suspension and Steering, 02/25/2022
- ASE Certification – A5 Brakes, 01/28/2022
- EPA Section 609 Certification – Refrigerant Recovery & Recycling Program, 10/30/2015
- Qualified Ship's 3M LCPO/Division Officer (PQS 43241(series), 304), 06/18/2013
- Safety Technician Navy Enlisted Classification (NEC) 9571, 09/10/2008
- Qualified Ship's 3M Work Center Supervisor (PQS 43241(series), 303), 03/06/2006
- Qualified Quality Assurance (QA) Craftsman (PQS 43523-B, 301), 12/18/2002
- Qualified Ship's 3M Maintenance Person (PQS 43241(series), 301), 12/10/2002
- AEGIS Weapon System Mk-7 (Track III) Technician, NEC 1352
- Trident Submarine Weapon System Maintenance Technician
- Aegis Fire Control System (FCS) Mk-99 Technician
- 400Hz Air-Cooled Solid-State Frequency Converter (ACSSFC) System Technician, NEC 1143

PROFESSIONAL HISTORY

Business Co-Owner

04/2019 – Current

Estevez Designs LLC

Remote, FL

- Creates YouTube content videos.
- Attained accreditation status and rating with Better Business Bureau (BBB) in 2020.
- Established Estevez Designs LLC in 2019.

Biomedical Field Technician

09/2023 – Present

CSC Biomedical Engineering Services

Orlando, FL

- Service, maintain, and repair medical, dental, and optometry equipment.

Automotive Mechanic

06/2022 – 08/2023

4 Wheel Parts

Longwood, FL

- Installed a myriad of aftermarket parts on trucks, Jeeps, and SUVs, such as suspension lifts, wheel and tire packages, tonneau covers, rock bars, nerf steps (both tubes and electric steps), bumpers, off-road lights and light bars, winches, gears, locking differentials, performance brakes, cold-air intake systems, and custom roll-cages in Jeeps. Also performed the requisite 4-wheel alignment required after installing a suspension lift, as well as any steering/suspension repairs or upgrades necessary to ensure the vehicle received an accurate alignment.
- ASE certifications:
 - A4 – Suspension & Steering
 - A5 – Brakes
 - A6 – Electrical & Electronic Systems

Automotive Lead Mechanic

10/2021 – 06/2022

Tire Kingdom

Longwood, FL

- Performed automotive service repairs and maintenance across all vehicle manufacturers.
- ASE certifications:
 - A4 – Suspension & Steering
 - A5 – Brakes
 - A6 – Electrical & Electronic Systems

Field Service Technician

02/2021 – 10/2021

Carter Water

Longwood, FL

- Serviced water softeners, residential water treatment systems and reverse osmosis water dispensers.

Field Service Technician

07/2019 – 02/2021

MULTIVAC USA, Inc.

Kansas City, MO

- Serviced MULTIVAC thermoforming and tray sealing packaging systems, primarily supporting the food and medical packaging industries.
- Provided customer on-site troubleshooting, support, repairs, maintenance, and training on MULTIVAC machine configurations, operations, operating systems, as well as new machine installations.

AEGIS BMD SME

05/2018 – 01/2019

SimSTAFF Technical Services – Carley Corporation

Orlando, FL

- Supported the data collection Wave 3 Knowledge Capture for Sailor 2025 effort by providing AEGIS Weapon System knowledge and experience.
- Verified the accuracy of subject matter and training content collected.

Product Support Specialist

12/2017 – 04/2018

Superion

Lake Mary, FL

- Provided customer product support of OneSolution software.

Warfare Systems Supervisor – AEGIS Test Director**08/2016 – 10/2017**

Hepburn and Sons LLC

Wallops Island, VA

- Managed TAOS as the Ship Self Defense System (SSDS) Readiness Manager Test Director in support of missile defense systems.
- Managed the startup, loading, and executing test events per customer requirements.

Senior Field Engineer – AEGIS BMD Weapon System Test Director**04/2016 – 08/2016**

Lockheed Martin

Wallops Island, VA

- Coordinated system integration and testing of 17 different Aegis baselines.
- Provided on-site and distance support of customer system testing, development, certification, and training.
- Reviewed customer requested system configurations.
- Reviewed technical and engineering data to ensure the customer can conduct desired testing.

Fire Controlman (FC) – AEGIS BMD Weapon System**01/2001 – 03/2015**

United States Navy

Norfolk, VA

- USS Winston S. Churchill (DDG-81), homeport Norfolk, VA, 09/2011 – 03/2015
- Naval Intermediate Maintenance Facility, Pacific Northwest (NAVIMFAC PACNORWEST) Bangor, WA, 04/2009 – 04/2011
- USS Shiloh (CG-67) homeport Yokosuka, Japan, 03/2007 – 02/2009
- USS Winston S. Churchill (DDG-81), Norfolk, VA, 10/2002 – 01/2007
- AEGIS Training & Readiness Center, Dahlgren, VA, 12/2001 – 10/2002
- Naval Training Command, Great Lakes, IL – 04/2001 – 12/2001
- Recruit Training Command, Great Lakes, IL – 01/2001 – 04/2001
- Identified issues and developed solutions while working on multiple projects simultaneously both independently and as part of a team under time and deadline constraints.
- Interacted with subject matter experts and work center supervisors to ensure technical accuracy of completed work.
- Conducted safety walkthroughs of all shipboard spaces as Command Safety Petty Officer, contributing to continuous risk management. Shiloh, Churchill, and Bangor
- Developed and implemented an Operational Risk Management (ORM) program for the ship's Chief of Naval Operations (CNO) Selective Restricted Availability (SRA). Shiloh and Churchill
- Performed corrective maintenance and troubleshooting of Trident Submarine weapon and navigation systems in accordance with Technical Work Documents (TWD), Formal Work Packages (FWP), as well as Controlled Work Packages (CWP) per Level 1/Subsafe (L1/SS) QA standards. Manual. Bangor
- Reviewed technical data packages, work authorization forms (WAF), TWDs, FWPs, and CWPs to ensure the requested work was within specifications defined by technical drawings. Bangor
- Ensured contractor's conformance to Navy L1/SS QA standards set by the Joint Fleet Maintenance Manual. Bangor
- Applied ORM methods and practices to mitigate potential risks down to an acceptable level for team members to complete requested contract(s).
- Performed preventive and corrective maintenance and troubleshooting of the AEGIS Weapon System systems, Mk99 FCS, and 400Hz ACSSFC systems in accordance with technical specifications and maintenance requirement cards.
